

## **REMARKS**

Applicants gratefully acknowledge receipt of the Notice of Allowance dated June 1, 2009, allowing claims 1-6 and 21-31.

This paper presents amendments under 37 C.F.R. § 1.312 to the specification to conform the Title and the Summary of the Invention to the claims allowed in this application.

This paper also amends claims 6 and 31 to correct antecedent basis inaccuracies for the phrase “the data structure representation of the one or more definitions” that arose because of the Examiner’s Amendment to independent claim 1. The phrase is being amended in each of these claims to be “the data structure representation of the definitions”, which is consistent with the phrase as used in independent claim 1.

According to MPEP § 714.16, the Examiner “has authority to enter amendments submitted after Notice of Allowance of an application which embody merely the correction of formal matters in the specification or drawing, or formal matters in a claim without changing the scope thereof, or the cancellation of claims from the application, without forwarding to the supervisory patent examiner for approval.” Because the amendments presented in this paper include only corrections of formal matters in the specification and in claims 6 and 31 without changing the scope thereof, the Examiner is authorized under MPEP § 714.16 to make the amendments presented herein. Applicant submits that no new matter is added by these amendments.

Applicants respectfully request that these amendments be entered in accordance with 37 C.F.R. § 1.312 under the Examiner’s authority as specified in MPEP § 714.16.

The Commissioner is hereby authorized to charge or credit Deposit Account No. 122158 for any fees required or overpaid.

### **CONCLUSION**

If the Examiner believes that a telephone conversation with the Applicants' representative would expedite resolution of any unforeseen matters related to the amendments requested herein, the Examiner is cordially invited to call the undersigned at (508) 303-0932.

Respectfully submitted,
